

## **Interim Management Report of Fund Performance**

*For the Six-Month Period Ended September 30, 2023*

*This Interim Management Report of Fund Performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You may obtain a copy of the interim financial report or annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR+ website at [www.sedarplus.ca](http://www.sedarplus.ca).*

*Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.*

*For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.*

### **A NOTE ON FORWARD-LOOKING STATEMENTS**

*This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.*

*The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.*

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2023

## Management Discussion of Fund Performance

November 13, 2023

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the six-month period ended September 30, 2023 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "Mackenzie" and "the Manager" refer to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

## Results of Operations

### Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's Series A securities returned -1.1%, and Series LB securities returned -1.2% (after deducting fees and expenses paid by the series). This compares with a return of 3.7% for a blended index composed of a 59% weighting in the Fund's broad-based index, the S&P 500 Index (returned 5.6%), a 34% weighting in the FTSE Canada 91-Day T-Bill Index (returned 2.2%) and a 7% weighting in the FTSE Canada Universe All Government Bond Index (returned -5.4%). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

U.S. equities rose over the period as the pace of federal funds rate increases from the U.S. Federal Reserve eased. In both Canada and the United States, the labour market was strong, and inflation remained elevated. The Bank of Canada raised its policy rate by 50 basis points to 5.00%, and government and corporate bond prices fell as a result. As global central banks increased their policy rates, global fixed income yields moved higher.

Within the S&P 500 Index, communication services, energy and information technology were the strongest sectors in Canadian dollar terms, while utilities, real estate and consumer staples were the weakest.

The following discussion reflects the Fund's allocation decisions and the activities and performance of its underlying investment funds and other directly held securities. The Fund underperformed the broad-based index because of its allocation to fixed income, which underperformed U.S. equities over the period. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

The Fund underperformed the blended index, with the equity and fixed income portfolios underperforming the equity and fixed income portions of the blended index.

Within the equity portion of the Fund, holdings in Canada and in Israel detracted from performance. In sector terms, underweight exposure to information technology and stock selection in financials detracted from performance, as did an

underweight position and stock selection in communication services. Conversely, underweight exposure to the health care and consumer staples sectors contributed to performance.

Within the fixed income portion of the Fund, security selection in government bonds detracted from performance. Conversely, holdings in corporate bonds and term loans contributed to performance.

The Fund has exposure to purchased put options and written call options on the S&P 500 Index with the intention of reducing volatility and helping to protect the Fund from the impact of market declines, which detracted from performance.

Over the period, neither portfolio activity nor market developments significantly changed the positioning of the Fund.

### Net Assets

The Fund's net assets increased by 10.1% during the period to \$53.6 million. This change was composed primarily of \$0.5 million in net losses (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and an increase of \$5.4 million due to net securityholder activity (including sales, redemptions and cash distributions).

### Fees and Expenses

The annualized management expense ratio ("MER") for each series during the period ended September 30, 2023, was generally similar to the MER for the year ended March 31, 2023. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

### Recent Developments

Late in the period, equity markets began to reverse earlier gains as bond yields continued to rise and consensus expectations for rate cuts were pushed further into 2024. Federal Reserve officials suggested interest rates could remain high for longer than previously expected, with one more rate increase possible in 2023.

The portfolio management team expects that the U.S. economy will continue overheating and the global macroeconomic environment will remain one of high inflation and resilient growth. As a result, the team believes that interest rates are likely to remain elevated. In contrast, the team expects Canada to underperform the United States over the coming quarters because inflation remains high and softening economic data raises the prospect of a recession.

### Related Party Transactions

#### Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

#### Other Related Party Transactions

At September 30, 2023, Mackenzie had an investment of \$0.02 million in the Fund (less than 0.1% of the Fund's NAV).

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions in the period.

# MACKENZIE MONTHLY INCOME GROWTH PORTFOLIO

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2023

## Past Performance

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

## Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

- This information is provided as at the end of the fiscal period shown.
- Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

## Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. The Manager also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

LBC Financial Services Inc. ("LBC") is the principal distributor for the LBC series securities of the Fund (as listed under *Fund Formation and Series Information*) and receives a portion of the management fees that the Fund pays to the Manager. Under this arrangement, LBC was entitled to approximately 25% of the total management fees that the Manager received from the LBC series of all Mackenzie funds during the period. The Manager is responsible for paying all distribution-related payments to LBC-authorized dealers whose clients invest in the LBC series of the Fund.

The following dealers affiliated with the Manager may be entitled to distribution-related payments from the Manager on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

The Manager used approximately 42% of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 42% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

## Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Simplified Prospectus.

Date of Formation: September 29, 2021

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed under *Financial Highlights*.

**Series Offered by Mackenzie Financial Corporation** (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; [www.mackenzieinvestments.com](http://www.mackenzieinvestments.com))

Series A and Series T8 securities are offered to retail investors investing a minimum of \$500. Investors in Series A and Series T8 securities also want to receive a monthly cash flow of 4% and 8% per year, respectively.

Series AR securities are offered to retail investors in a Registered Disability Savings Plan offered by Mackenzie. Investors in Series AR securities also want to receive a variable monthly cash distribution.

Series D securities are offered to retail investors investing a minimum of \$500 through a discount brokerage or other account approved by Mackenzie. Investors in Series D securities also want to receive a monthly cash flow of 4% per year.

Series F and Series F8 securities are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least \$500 (\$5,000 for Series F8); they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie. Investors in Series F and Series F8 securities also want to receive a monthly cash flow of 4% or 8% per year, respectively.

Series FB securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series FB securities also want to receive a monthly cash flow of 4% per year.

Series O securities are offered only to investors investing a minimum of \$500,000 who are enrolled in Mackenzie Portfolio Architecture Service or Open Architecture Service, certain institutional investors, investors in a qualified group plan, and certain qualifying employees of Mackenzie and its subsidiaries. Investors in Series O securities also want to receive a monthly cash flow of 4% per year.

Series PW and PWT8 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors in Series PW and Series PWT8 securities also want to receive a monthly cash flow of 4% or 8% per year, respectively.

Series PWFB securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWFB securities also want to receive a monthly cash flow of 4% per year.

Series PWR securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000 in a Registered Disability Savings Plan offered by Mackenzie. Investors in Series PWR securities also want to receive a variable monthly cash distribution.

Series PWX and Series PWX8 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWX and Series PWX8 securities also want to receive a monthly cash flow of 4% or 8% per year, respectively.

**Series Distributed by LBC Financial Services Inc.** (1360 René-Lévesque Blvd. West, 13th Floor, Montréal, Québec H3G 0A9; 1-800-522-1846; [www.laurentianbank.ca/mackenzie](http://www.laurentianbank.ca/mackenzie))

Series LB and Series LX securities are offered to retail investors investing a minimum of \$500 (\$5,000 for Series LX). Investors in Series LB and Series LX securities also want to receive a monthly cash flow of 4% or 5% per year, respectively.

Series LF and Series LF5 securities are offered to retail investors investing a minimum of \$500 (\$5,000 for Series LF5), who are enrolled in the LBC Private Banking sponsored fee-for-service program. Investors in Series LF and Series LF5 securities also want to receive a monthly cash flow of 4% or 5% per year, respectively.

Series LW and Series LW5 securities are offered through our Preferred Pricing Program to certain high net worth investors who invest a minimum of \$100,000. Investors in Series LW and Series LW5 securities also want to receive a monthly cash flow of 4% or 5% per year, respectively.

Effective June 1, 2022, an investor may purchase the Fund under a sales charge purchase option and a no-load purchase option. Not all purchase options are available under each series of the Fund. The sales charge under the sales charge purchase option is negotiated by the investor with their dealer. Securities purchased before June 1, 2022, under the redemption charge purchase option, low-load 3 purchase option and low-load 2 purchase option (collectively the "deferred sales charge purchase options") may continue to be held in investor accounts. Investors may switch from securities of a Mackenzie fund previously purchased under these deferred sales charge purchase options to securities of other Mackenzie funds, under the same purchase option, until such time as the redemption schedule has expired. For further details, please refer to the Fund's Simplified Prospectus and Fund Facts.
